The minimum monthly salary for each class of full-time employees shall be laid down based on the number of years of professional experience:

- according to scale I from the first year of employment;
- according to scale II for employees who have been working for at least one year in the same company.

The starting salaries laid down in minimum scale I for all job classes correspond to 0 years of professional experience.

The transition from one scale to another shall take place in the month following that in which the employee meets the eligibility condition.

The application of the scales only concerns the minimum salaries of employees who also meet the eligibility conditions; it cannot affect the salaries of employees paid above these minimum salaries.

"Professional experience" means the period of actual and assimilated professional activity performed with the employer with whom the employee is in service, as well as the periods of actual and assimilated professional activity which the employee has performed prior to his/her entry into service, as a salaried worker, a self-employed person or a statutory civil servant.

In order to determine the period of professional experience, part-time activities shall be regarded as full-time activities.

The periods of total suspension of the execution of the employment contract as defined below shall be regarded as actual professional activity:

- periods of incapacity for work due to an accident at work or an occupational disease;
- periods of incapacity for work due to sickness or accident, other than an accident at work, up to a maximum of 3 years;
- periods of full-time time credit for thematic reasons, as provided for in Article 4 of CLA No 103, provided that ONEm/RVA benefits are granted, and periods of thematic leave (parental leave, assistance or care for a seriously ill member of the household or family, palliative care), up to a maximum of 3 years;
- periods of full-time time credit without thematic reasons provided that ONEm/RVA benefits are granted, up to a maximum of 1 year;
- periods of maternity leave;
- periods of prophylactic leave;
- periods of paternity leave;
- periods resulting from the application of the crisis measures as provided for in the Law of 19.07.2009;
- other periods of total suspension of the employment contract, as defined in the Law of 03.07.1978, with maintained remuneration.

Apart from the suspension of the employment contract, the following periods are regarded as actual professional activity:

- periods of full unemployment with benefits, up to a maximum of 1 year for the unemployed with benefits who have less than 15 years of professional experience and up to a maximum of 2 years for the unemployed with benefits who have more than 15 years of professional experience.

The professional experience acquired before the age of 21, for which a youth scale has been provided for in Article 6, shall be taken into account at the start of the experience-based scale set out in Article 2.

Remark:

For the purposes of taking professional experience into account, no period of assimilation may be cumulated with a period of professional activity or with any other period treated as such.

A derogation from Article 3 has been provided for employees who were already in the service of the employer when the new scale system was introduced by the CLA of 28.09.2009 concluded in the National Auxiliary Joint Committee for Employees, i.e. on 30.09.2009.

On 01.10.2009, these employees' number of years of professional experience that will be taken into account for the past shall be determined on a fictitious basis, as long as they remain in the service of the same employer.

The fictitious professional experience is equal to the number of years corresponding, in the experience-based scale, to the amount of the sectoral salary scale that would have been applicable to them on 30.09.2009 according to the conversion table included in appendix 2 to this CLA.

This system of fictitious professional experience shall apply in identical fashion to employees paid at the sectoral scale and to employees paid above the sectoral scale and shall apply irrespective of the actual remuneration of the employee in question.

At the time of entry into service, the employee's salary scale shall be determined in accordance with the experience-based scale of the class to which his/her job belongs and on the basis of the professional experience as provided for in the aforementioned Article 2.

The sum of periods of professional experience and periods treated as such shall be expressed in years and months.

The first scale increase after entry into service shall occur on the first day of the month following that in which the employee moves up to the next year of professional experience.

If the period of professional experience has increased by 12 months since the last scale increase, the employee's scale salary shall increase by one year of professional experience, according to the scale, on the first day of the following month.

In the event of a new recruitment, the candidate shall provide the employer with all the information necessary to enable the latter to determine the salary that complies with the provisions of this agreement.
