

Joint Labour Committee for the horticultural enterprises (JC 145) (except the non-manual employees)

In accordance with European law, this document only contains provisions of collective labour agreements (CLA) which have been declared universally applicable within the meaning of Directive 96/71/EG, i.e., in Belgian Labour Law, conventional provisions made mandatory by Royal Decree, and which are criminally sanctioned in case of non-compliance.

For this reason, this document is regularly updated. It is recommended that posted workers and their employers consult the documents regularly during the period of posting. The date of the last update is indicated in the top right-hand corner.

This document is based on sectoral CLA's. The competent Joint Committee is therefore the one that can ultimately deliver a judgment about the right interpretation of its CLA's.

Only the Dutch and the French versions of the text of the decision to declare a provision universally binding (AVV Decision) has legal validity for the determination of rights and obligations.

Determination of the conditions under which night work and Saturday work may be introduced in the "installation and upkeep of parks and gardens" sector in application of the law of 17 March 1987 relating to the introduction of new working arrangements in companies

CHAPTER II. Legal basis

Art. 2. This collective labour agreement is concluded in application of the law of 17 March 1987 relating to the introduction of new working arrangements in companies (Belgian Official Gazette of 12 June 1987) and in application of collective labour agreement no. 42 of 2 June 1987.

CHAPTER IV. Work on Saturday

Art. 6.

§ 1. The 5-day week, Monday to Friday, applies as a basic rule in the subsector «layout and upkeep of parks and gardens». It is possible to derogate from this basic rule in the cases described in §2 below.

Article 4, 2° of the law of 6 April 1960 (Belgian Official Gazette of 7 May 1960) concerning the execution of construction works, prohibits the execution of landscaping, siting and maintenance work on roadsides, playgrounds and sports areas, airfields, parks and gardens on Saturdays. Pursuant to article 2, 4° of the law of 17 March 1987 relating to the introduction of new working arrangements in companies, it is possible to derogate from this prohibition in the cases described in § 2 below.

§ 2. Working on Saturday is only allowed if it is impossible to work during the week for one of the following reasons:

- rules imposed by a public authority
- safety of the worker: work for which the safety of the worker cannot be guaranteed in any way if it is carried out on a day other than Saturday.
- necessary work that cannot be performed other than on Saturday

In each of these cases, it is necessary to have a reasoned case approved by the Joint Committee (art. 7).

§1. The employer must submit a reasoned request to work on Saturday to the President of the Joint Committee 145.

- This request must reach the Chairman of the Joint Committee at least 2 "working months" (60 calendar days) before the work is to be carried out. The months of July and August are not considered as "working months" and therefore extend the deadline for the request.
- The request must comply with the formal requirements of the standard form annexed to this collective labour agreement.
- For work on Saturday, an agreement at company level is always required. The request must therefore be accompanied by the signed agreement of the workers concerned and the agreement of the trade union delegation where indicated
- The request for work on Saturday must always be linked to a maximum of one site.

§2. The Chairman of the Joint Committee shall place the request on the agenda of the first meeting of the Joint Committee following receipt of the request. The members of the Joint Committee shall decide unanimously.

The Chairman of the Joint Committee shall then communicate the reply in writing to the company concerned.

§3. Work on Saturday may begin only after receiving written authorization from the Joint Committee. This written authorization determines:

- The period during which work is permitted on Saturday (at most until the end of the calendar year).
- The place(s) where work is permitted on Saturday;
- For which activities work is allowed on Saturday and why (reasons).

Art. 8. A salary supplement of 50% is always due for work on Saturday. In the event of more favourable rules within the company, these shall continue to apply.

Art. 9. This collective labour agreement comes into effect on 1 January 2023 and is concluded for an indefinite period.

Bad weather premium

CLA of 8 May 2001 (58 610)

(Royal Decree 10/12/2002 - Belgian Official Gazette 02/04/2003)

Creating solidarity in the wage costs due to the interruption of the working day by adverse weather

Article 1.

This CLA applies to regular workers with the exception of the seasonal and occasional personnel referred to in Article 8a of the Royal Decree of 28 November 1969 implementing the Law of 27 June 1969 amending the Decree of 28 December 1944 on social security for workers.

Art. 2.

The signatory parties note that, following the application of Article 27 of the Law of 3 July 1978 on employment agreements (Belgian Official Gazette of 22 August 1978), the worker is entitled to the remuneration that he would have earned had he been able to accomplish his daily duty normally which, due to a cause beyond his will, he could not start, although he had normally gone to his place of work, or he could not continue the work he was performing.

The signatory parties note that the application of Article 27 of the Act of 3 July 1978 on employment agreements in the case of unworkable weather circumstances raises problems. They intend to have part of the problems that have emerged in the implementation of Article 27 and the resulting wage costs taken into account certain marginal conditions specified further on in the current CLA.

Art. 3.

A worker who, because of weather conditions making work impossible, could not continue the work which he had started or could not begin the work though he had gone to the place where the work had to be executed, is entitled at the expenses of his employer to the wages of the entire working day and this according to the applicable schedule.

The signatory parties highlight that this is the normal application of the Article 27 of the Act on employment contracts.

Art. 4.

The signatory parties agree that of the wage costs resulting from the application of the aforementioned Article 27 half can be recovered respectively from the Guarantee and Social Fund for horticultural enterprises and the Social Fund for the layout and upkeep of parks and gardens as a function of the main activity of the employer.

Art. 6.

The board of managers of the relevant Welfare Fund shall set the conditions under which a partial recovery of the wage costs shall be possible. Thus, the Board of managers may provide the recovery for a capped number of days per company or per worker. The Board may also provide a link with the application of temporary unemployment due bad weather.

Precise instructions shall be communicated in a circular to the employers, prepared by the board of managers of the respective welfare funds.

Art. 7.

This CLA comes into effect on 1 July 2001 and is concluded for an indefinite period.

In other words, they will only have to be paid when the posted workers have to move to or from their usual workplace in Belgium, or when they are temporarily sent by their employer from that workplace to another workplace).
